

Dear P&C president,

I am interested in bringing the 'My Organic School' [www.myorganicschool.com](http://www.myorganicschool.com) program to our school.

As a parent at the school I feel that starting a school veggie box co-op and making toxin free produce affordably available to school families would be of great benefit to the school community. Funds from the co-op will contribute to

funding veggie beds and healthy eating classes at our school. This will go some way to creating lasting nutritional change for our students.

The core of the program is the creation of a weekly organic veggie box co-op at our school. The co-op creates affordable toxin free fruit and vegetables for our school community.

My Organic School is well established, they currently have organic veggie box co-ops running at these schools:

Bronte Public School

Clovelly Public School

Kensington Public School

Bourke Street Public School

Crown Street Public School

Birchgrove Public School

Kincumber Holy Cross Primary School

### **Request to present at our next P&C association meeting for 8 minutes**

I would like to request that David Walsman from 'My Organic School' be put on the agenda to present at our next P&C meeting for 8 minutes.

The school organic veggie box co-op is run as a P&C association event. After approval at a P&C meeting the school has no further requirement for resources or volunteers. The program self manages through a school parent facilitator and all volunteer rostering, ordering, administration and communication is handled through the My Organic School website [www.myorganicschool.com](http://www.myorganicschool.com)

To proceed with the program we need to have a motion approved at a P&C meeting stating that "The school P&C association approves the creation of a regular weekly event being an organic veggie box group at the school."

If you would like to visit a working example of the Organic Vege Box program in action please attend Bronte Public School's divvy up of produce any Thursday of school term at 3.10 pm (held in the school hall)

Here is a link to the My Organic School Website:

[www.myorganicschool.com](http://www.myorganicschool.com)

and their promotional videos:

Information for school P&C associations:

<https://www.myorganicschool.com/info-for-school-pandcs>

### **Giving back to the school**

5% (\$20-\$50 per week) of all order revenue is retained in trust for the school and is reimbursed by working on our school veggie beds, donation of vegetable seedlings or the teaching of "where does your food come from" classes in our school veggie beds to school students.

My Organi School "Where does your food come from" class videos:

It would be great if you can confirm the time of the next P&C meeting and that David Walsman from 'My Organic School' has been put on the agenda to present.

Kind regards,
